Simple Actions Matter in New Jersey

Project Porchlight staff, partners, and volunteers are handing out ENERGY STAR® qualified **compact fluorescent light (CFL) bulbs** at events and door to door throughout New Jersey.

Distributing energy-efficient light bulbs is the first step in making energy conservation accessible, relevant, and personal by giving regular people the power to save money, energy, and help save the planet.

Join the thousands of New Jersey residents, homeowners, businesses, and municipalities that are lowering their energy usage, saving \$30 over the lifetime of each CFL bulb, and reducing greenhouse gas emissions simply by switching one old-fashioned incandescent light bulb for a CFL.

Get started today! To become a volunteer, call 888-767-2458 or visit www.porchlight.org.

Project Porchlight is funded by *New Jersey's Clean Energy Program™* (NJCEP) and the New Jersey Board of Public Utilities as part of the *Green New Jersey Resource Team*.

See what else NJCEP can do for you:

- Analyze your home energy use. Find out how you can save energy in your home with the **Home Energy Analysis**—a free, customized home energy audit.
- Through the **New Jersey Comfort Partners Program**, income-eligible households receive free installation of energy-efficient measures, upgrades, and equipment.
- Replace your old furnace, water heater, and central air conditioner with high efficiency models and get rebates through NJCEP's **WARMAdvantage** and **COOLAdvantage** programs.
- Use energy calculators to help identify **energy-saving opportunities** in your home.

For more information about incentives from the Home Performance with ENERGY STAR program, call 866-NJ-SMART or visit www.NJCleanEnergy.com.

Take the first step in helping reduce overall energy use and create a brighter future for New Jersey!
