

Partnerships

Civil Society Involvement

Partnerships

To achieve its mandate, the United Nations Environment Programme needs the support of partners from all sectors of society, including, governments, nongovernmental organizations, media, youth groups, the private sector, civil society, and the scientific community.

UNEP RONA would like to thank its partners for their support in helping us meet our goals.

The Baum Foundation

The mission of the Baum Foundation is to improve the quality of people's lives by supporting programs in the arts, education and the environment. The Baum Foundation contributes its time and resources to nurture artistic talent, to provide youth with educational opportunities, and to support the conservation and preservation of the planet's biodiversity. Embodied in this commitment is the belief that people can imagine, learn and act through the arts, education and the environment to improve the human condition. At the heart of The Baum Foundation mission is the idea that, by supporting creativity in the arts, providing educational opportunities for youth and putting programs in place to preserve the environment, we can collectively enrich the quality of life of contemporary society.

The Meridian Foundation

The Meridian Foundation promotes healing in both the individual and the environment through education, the delivery of preventative and supportive health services and the arts. The Foundation is completely voluntarily supported. Business costs and materials are donated by for-profit sponsors allowing 100% of incoming funds and contributions to go to the programs we create or support. The primary focus of Meridian is to enlist, train and mentor volunteers, and although funds are granted in some programs, funding is not the primary purpose, rather, the Foundation provides networking tools as means for voluntary service.

One Change

One Change empowers people to believe that simple actions matter and to make smart choices that protect the environment. One Change is a unique non-profit non-partisan grassroots organization that makes global environmental issues—like climate change—relevant and accessible to individuals. One Change delivers innovative and award-winning community-based social marketing campaigns that distribute the tools and information required to convert environmental awareness into meaningful action. The tools One Change promotes include energy-efficient compact fluorescent light (CFL) bulbs, fuel-saving digital tire gauges, and water-saving conservation kits, with creative new campaigns in development.

Planet Green

Planet Green is the first and only 24-hour eco-lifestyle television network with a robust online presence and community. Launched in June 2008, the on-air content reaches 50 million homes, offering more than 250 hours of original green lifestyle programming. Both online and on-air, Planet Green's content is entertaining, relevant, and accessible to people of all ages and backgrounds. By representing a broad range of ideas and perspectives, Planet Green is taking an active role in generating conversation and motivating individuals to take action when it comes to improving the environmental status of our planet.

United Nations Foundation

The UN Foundation, a public charity, was created in 1998 with entrepreneur and philanthropist Ted Turner's historic \$1 billion gift to support UN causes and activities. The UN Foundation is an advocate for the UN and a platform for connecting people, ideas and resources to help the United Nations solve global problems. The Foundation helps the UN take its best work and ideas to scale—through advocacy, partnerships, constituency building and fund-raising.
